

MINI-MAX VARIETY HUGE SAVINGS

Three years ago, I began a very ambitious journey of faith. The call on my heart was to help address the poverty of life and the poverty of spirit that exist in our city, community, and our country. I have since pledged all that I have to the effort.

Many of our citizens seem to have been left behind and trapped in poverty. The American dream has turned into a nightmare for them.

The war on poverty has not helped them! The political system and the faith community have dedicated trillions of dollars trying to help. However, we are more divided as a country than we have ever been. We have gone from the richest country in world history to the most indebted county in world history in 50 years. The war on poverty in

the US threatens to turn into another civil war. The political system has turned very uncivil already.

I have developed a non-profit and a for profit business to jointly engage a new way to help bring people and resources together again. We are helping many individuals and organizations at this point. We do so by saving them money and teaching them new life skills. The working poor are living on poverty assistance programs. If they improve their income, they lose part of their assistance. However, they are not penalized for saving money. We can save people thousands of dollars a year. We can also save other non-profits thousands of dollars a year. The plan includes assisting the working poor out of the ghettos into home ownership and economic freedom.

My family and I have served the Muskogee community since 1977. We were blessed and favored by God and the Muskogee community. We developed into a very successful family grocery chain. I am starting the grocery store operations again to address the "Food Desserts" that exist in the United States. We have won Support from the Federal Government, local governments, the food industry, and the community of Muskogee. Additionally, we are now able to save

people money on the essential non-food items of life. That is what **Mini-Max** variety is about.

The new **Mini-Max** grocery store is scheduled to open about August the 1st. We have proven in the past that we know how to operate grocery stores. We were recognized twice as national independent retailer of the year. We are hiring top skilled grocery store management and department heads.

This journey started with a mustard seed of faith three years ago. I am very excited about what He has done and our progress. To God be the glory!

My goal is to manage and grow this effort as fast as I can in the next five years. I intend to leave it in a form to best continue and achieve the mission of addressing the poverty of faith and spirit. First in Muskogee and then beyond!

God told Abraham: I will bless you and make you a blessing to all nations. (*Genesis 12:2*)

It is time for His people to come together!
